

SURF PA6 – THE TABLE CONNECTOR

- high quality furniture fittings

The SURF PA6 table connector is the second generation of our table connector SURF. As the name indicates it is produced in polyamid material whereas the original SURF is made of zamak.

The function is the same but due to the choice of material the price is more affordable. It is however only available in black color.

1 set consists of a male & female part made of PA6 material.
Fixation by means of 4 wood screws, a zamak screw-in bushing and a fifteen screw.
